
Hospital Readmission Rates-Youth

Introduction

Federal Managed Care require County MHP's to monitor readmission rates of psychiatric hospitalizations.

- The County monitors re-hospitalization of Medi-Cal beneficiaries.
- The County tracks re-hospitalizations within 30, 60 and 90 days of discharge from initial hospitalizations.
- The County Tracks the total number of re-hospitalizations per beneficiary per quarter.

Results for Prior Quarter

Description: The MHP tracks the number of days between the initial discharge from a psychiatric hospitalization and re-hospitalization of the same client. Goal is readmission rate no higher than 20.8%.

Frequency: Reported quarterly, available approximately 4 weeks after the end of each quarter.

Calculation: Numerator: Number of Medi-Cal beneficiaries who are re-hospitalized by date intervals:30, 60, 90 days. N = 12 FY 15-16 N = 25 FY14-15

Denominator: Number of Medi-Cal beneficiaries hospitalized.

FY15-16 N = 55 Readmission Rate = 22% FY14-15 N = 68 Readmission Rate = 37%
