

# It's Important to Get Your Second Dose of the COVID-19 Vaccine

It takes TWO doses of the Moderna or Pfizer vaccine to be fully protected. Don't take chances with your health. It's safe, effective, and free!

**Getting fully vaccinated protects loved ones who are not yet eligible to receive the vaccine or are at higher risk.**

**COVID-19 vaccines are highly effective against variants of the virus.**

**Full vaccination protects against severe illness, hospitalization, and death due to COVID-19.**

**Getting fully vaccinated helps to keep our schools and businesses open.**

**Side effects are minor.** You may have a fever, chills or body aches after a second dose. These are normal and usually only last a day or two.

## We Can Help You Schedule a Second Dose

If you need a second dose but don't have an appointment, call the COVID-19 Call Center at (831) 454-4242 or email [HSAC19VaccineClinics@santacruzcounty.us](mailto:HSAC19VaccineClinics@santacruzcounty.us).

Please include the date and type (Moderna or Pfizer) of your first dose.

## Frequently Asked Questions

### What if I lost my vaccination card?

Contact your first vaccine provider, or regular healthcare provider, to get a replacement card.

You can also access your digital vaccine record through <https://myvaccinerecord.cdph.ca.gov>

### Do I need to get the same brand as my first vaccine?

Yes. If you don't remember what brand you received, talk to your healthcare provider.

### What if I missed my second dose appointment?

If you are outside of the recommended window for getting your second dose, call your healthcare provider. You may still be able to get vaccinated.

### Do I need to return to the same place for my second dose?

No. You can go where it is easy for you.
