Be Prepared:
- Plan your route. Use this map to locate your destination and choose a route with sidewalks and fewer cars. Take the map with you.
- Dress Comfortably. Select loose fitting breathable fabrics. Your outer layer should protect you from the weather. Consider wearing a hat and sunscreen.
- Wear comfortable shoes. Good walking shoes have low heels, arch support, and decent tread. Carry your other shoes to change into when you get there.
- Carrying things with you. Take along a backpack, waist pack, or rolling cart. Always be aware of traffic and weather conditions, construction work and other hazards. Road, bike lane and sidewalk conditions can vary dramatically.

Practice Safety First:
- Follow Laws. Cross in crosswalks and at intersections.
- Be Visible. Choose brighter clothing, and always make eye contact with drivers before crossing in front of them. Look to make sure all vehicles have stopped before stepping into the lane.
- Pay Attention. Don’t get distracted, especially by your mobile phone. If you need to use your phone, stop walking and move aside.
- Start Easy. Walk once a week and add days as the going gets easier.
