Boost your protection against COVID-19!

COVID-19 booster doses are the best way to maintain protection against severe illness from COVID-19. The updated boosters offer better protection against newer Omicron subvariants.

Who?

Everyone ages 5 years and older are eligible for a updated booster.

- **Pfizer** updated booster available for everyone ages 5+
- **Moderna** updated booster available for everyone ages 6+

When?

2 months after primary series or last booster dose

Where?

Available through healthcare providers, clinics, and pharmacies. Visit santacruzhealth.org/coronavirusvaccine, MyTurn.ca.gov, or call 833-422-4255 for scheduling.

Don't delay! Boost your immunity today!

- You are eligible for an updated booster regardless of the number of booster doses you already received
- Your booster may be the same or a different vaccine brand as your primary series or previous booster

Don't forget your flu vaccine!

You can safely get the flu vaccine at the same time as your COVID-19 booster.

Eligible for the Monkeypox (MPX) vaccine?
