Meeting Commenced at 3:05 pm and Concluded at 5:00 pm

Excused/Absent:
Absent: Gustavo Mendoza

1. Welcome/Introductions
Introductions done at this time.

2. Oral Communications:
Dave Willis asked for a moment of silence today marking the 80th anniversary of the Pearl Harbor attack.
Amy provided an overview of the commission for the new commissioners and how important their voice is to this commission. Also, during this time all commission members and county staff welcomed new members and introduced themselves.

3. November 4, 2021, Meeting Minutes - Action item
Review of November 4, 2021, Meeting Minutes – Recommended for Approval. Rahn recommend for approval with additional language that was added. Len second, and the rest of the members present were all in favor.

4. HRSA Form 5B Address Correction - Action Item
Raquel reviewed with commissioners the updates/corrections in the HRSA Form 5B. Rahn motioned to accept changes to HRSA form 5B. Len second and the rest of members present all in favor.

5. Policy No.: 640.06 - Restriction on Abortions and Women’s Reproductive Health Services – Recommend for Approval
Raquel reviewed updates with commissioners. She stated there were minor changes to Policy No: 640.06. Len makes motion to accept the changes to Policy No: 640.06. Marco second and the rest of the members present all in favor. David Willis abstains from voting.

6. Policy No.: 640.07 - Exceptions to Restriction on Abortions – Recommend for Approval
Raquel reviewed updates with commissioners. She stated there were minor changes to Policy No: 640.07. Len makes motion to accept the changes to Policy No: 640.07. Marco second and the rest of the members present all in favor. David Willis abstains from voting.

7. Quality Management Committee Update
Raquel gave updates on the following: Patient Centered Medical Home (PCMH), Quality Improvement Reporting Document, She gave a brief update on quality improvement data for patients with HIV/AIDS, she stated she will invite the manager of our HRSA Ryan White Grant to attend our next meeting to give an update. She also reported on the quality improvement
reports for the clinical teams. The clinical team will reach out to the patient to get them scheduled for appointments, and follow-ups. Raquel also stated they had a clinic operational plan training today (12/7/2021). She stated they did a training for the staff to track progress on a program management tool called Trello, she will have Mary send Operational Plan out to the new commissioners.

Raquel also gave an update on Peer Review. She stated 19 charts were reviewed and there were no concerns with care.

8. Social Justice

Caitlin acknowledged Amy for the introduction and the overview she gave of the commission during oral communications. Caitlin stated she wanted to leave the commission with three questions as we think of decision making in 2022. Who wins or benefits, who pays or who loses in a decision, and who decides. Caitlin stated as we continue to have conversation that we try to make sure that we are clear headed that all those affected by a decision are taken into consideration especially those who don't have a seat around these tables that make decisions.

9. Financial Update

Julian gave an overview of clinics budget. He stated our budget is very complex and that we receive funding from multiple places such as state funding, federal, grants, and local funding. He reported on clinic financials and reviewed revenue, and expenditures with the commissioners. He also gave updates on the following: Days in AR - This is a report on how quickly we send out the billing. The goal is to have this number under 30 days we are currently at 62 days. Percentage > 90 days - This looks at claims over 90 days. Charge Review Days – This report shows how long claims sitting in bucket. Lastly, the Visit Trend - Julian stated we are up over 2,700 hundred visits from the same time period in the previous year.

10. CEO/COVID-19 Update

Amy reported that 75% of Santa Cruz County residents have had at least one vaccine. Amy also reported back on commission member a commissioner that has missed several meetings. Amy stated she checked the bylaws and it stated we need to have 2/3 of commission vote to remove an officer that has missed multiple meetings. This will need to be an agenda item at our next meeting. There was discussion within the commission it was decided that Amy will reach out to the commissioner before the next meeting and if Amy can't get a hold of him, we will put this on the agenda. Lastly, Amy reported that every year the California State Association of Counties accepts nominations from counties state-wide highlighting various projects. She was happy to announce this year the Medication Assistant Treatment Program received the award.

Next Meeting: January 4, 2022, 3:00 pm - 5:00 pm
Microsoft Teams Meeting: 1080 Emeline, Santa Cruz, CA

GENERAL STATEMENT:

Health Services Agency (HSA) is committed to high standards and compliance with all applicable laws and regulations.

To guide the administration of the Health Center Program to ensure that HSA complies with Public Laws 115-31, Title V, § 506 [Restriction on Abortions] and 42 C.F.R. §§ 50.301, et seq. [Abortions and Related Medical Services in Federally Assisted Programs of the Public Health Service].

The purpose of this Policy is to provide safeguards that ensure HSA’s compliance with laws and regulations relating to the provision of women’s reproductive health services affecting health centers that receive federal grant funds under Section 330 of the Public Health Service Act (“Section 330”) through the U.S. Department of Health and Human Services (“HHS”).

HHS funds may not be used, in whole or in part, for any abortion. HHS funds may not be used, in whole or in part, for health benefits coverage that include coverage for abortion. The term “health benefits coverage” means the package of services covered by a managed care provider or organization pursuant to a contract or other arrangement.

These requirements also apply to subawards/subcontracts under a Health Resources and Services Administration grant or cooperative agreement.

POLICY STATEMENT:

Compliance with Federal Regulations:

- **Section 330 of the Public Health Act:** Under Section 330, Health Center is required to provide, either directly or through contracts or formal written referral arrangements, voluntary family planning services. HRSA defines voluntary family services in the Service Descriptor Guide as the following:
  
  “Voluntary family planning services are appropriate counseling on available reproductive options consistent with Federal, state, local laws and regulations. These services may include management/treatment and procedures for a patient’s chosen method (e.g., vasectomy, subdermal contraceptive placement, IUD placement, tubal ligation).”

As neither “appropriate counseling” nor “available reproductive options” are defined in Section 330, the implementing regulations, or HHS Health Resources and Services Administration (“HRSA”) guidance, Health Center will use the criteria established under the Family Planning Program regulations authorized under Title X of the Public Health Service Act for guidance on how best to provide appropriate family planning options counseling to Health Center’s patients.
• **The Hyde Amendment:** In providing women’s reproductive health services as a component of its Section 330-supported health center program, HSA will assure compliance with the Hyde Amendment. The Hyde Amendment is a statutory provision included as part of the annual HHS Appropriations legislation, which prohibits health centers from using federal funds to provide abortions (except in cases of rape or incest, or where a woman suffers from a physical disorder, physical injury, or physical illness, including a life endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed). The Hyde Amendment prohibits the performance of abortion procedures, as well as the administration of drugs and devices that are used for “medication” abortions that terminate an early pregnancy (up to 70 days from the date of the woman’s last menstrual cycle) rather than prevent implantation, including, but are not limited to, administration of the combination of RU-486 (Mifepristone or Mifeprex) and Misprostol, unless the abortion procedure or medication abortion fits within one of those explicit Hyde Amendment exceptions.

• **Prohibition on Coercion:** In providing women’s reproductive health services as a component of its Section 330-supported health center program, HSA will assure compliance with statutory requirements, as set forth in 42 U.S.C. §300a-8, which prohibits all HSA employed and contracted staff from coercing or endeavoring to coerce any person to undergo an abortion by threatening such person with the loss of, or disqualification for the receipt of, any benefit or other health center services. HSA will also assure that Health Center employed and contracted staff do not coerce or endeavor to coerce any person not to undergo an abortion by threatening such person with the loss of, or disqualification for the receipt of, any benefit or other health center services, consistent with guidelines to provide only neutral, factual information and nondirective options counseling.

• **Providing Access to FDA-Approved Contraceptive Methods:** HSA will ensure that its patients have access to the full range of Food and Drug Administration (“FDA”)-approved contraceptive methods designed to prevent a pregnancy.

**REFERENCE:**

**PROCEDURE:**

1. **Complying with the Hyde Amendment**

All Health Center employed and contractors who provide clinical services and non-clinical support staff agree that HSA shall not provide abortion services, either directly or by contract, within Health Center’s Section 330-supported health center program, unless the abortion fits within a Hyde Amendment exception, as described in Section III(3). These same HSA staff agree that this prohibition includes the administration of “medication” abortions that terminate an early pregnancy (up to 70 days from the date of the woman’s last menstrual cycle) rather than prevent implantation. Medication abortions include, but are not limited to, administering the combination of RU-486 (Mifepristone or Mifeprex) and Misprostol which results in the termination of a pregnancy.
2. Options Counseling
HSA staff providing options counseling shall offer pregnant women the opportunity to be provided information and counseling regarding each of the following options:
   a. prenatal care and delivery;
   b. infant care, foster care, or adoption; and
   c. pregnancy termination.
If requested to provide such information and counseling, HSA staff will provide neutral, factual information and nondirective counseling on each of the options, and referral upon request (subject to Section 7 below), except with respect to any option(s) about which the pregnant woman indicates that she does not wish to receive such information and counseling.

HSA staff are strictly prohibited from coercing or endeavoring to coerce any person to undergo or not to undergo an abortion by threatening such person with the loss of, or disqualification for the receipt of, any benefit or other health center services.

Health Center staff, upon request, will provide patients with information regarding the management/treatment, as appropriate, for a patient’s chosen family planning method. Such management/treatment information may address vasectomy, tubal ligation, and placement of long-acting reversible contraception (e.g., IUDs and implants). In addition, Health Center Staff will ensure that its patients have access to the full range of FDA-approved contraceptive methods designed to prevent a pregnancy.

5. Referrals for Abortion Services.
   a. If a patient requests an abortion either for a pregnancy resulting from rape or incest or because the patient suffers from a physical disorder, physical injury, or physical illness, including a life endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the patient in danger of death unless an abortion is performed, in accordance with the Hyde Amendment exceptions, and the health center does not furnish abortions in such limited circumstances, HSA staff will provide the patient with a referral to another medical facility.
   b. In the event that a patient’s pregnancy is not the result of rape or incest, or the pregnancy does not endanger the life of the woman (as defined in Section II (7)(a) above), and accordingly does not meet a Hyde Amendment exception, and the pregnant woman requests a referral to an abortion provider, HSA staff offering referral assistance may provide the name, address, telephone number, and other relevant information (such as whether the provider accepts Medicaid, charges, etc.) about an abortion provider. Such HSA staff will not take further affirmative action (such as negotiating a fee reduction, making an appointment, providing transportation) to secure abortion services for the requesting patient. Staff may provide language translation assistance for the making of an appointment if the patient is also on the phone with the abortion provider.

6. Restriction on Abortions
HSA’s Chief Medical Officer will ensure that the health center and/or sub-awardees/subcontractors comply with this policy:
   a. None of the funds appropriated in this Act, and none of the funds in any trust fund to which funds are appropriated in this Act, shall be expended for any abortion.
   b. None of the funds appropriated in this Act, and none of the funds in any trust fund to which funds are appropriated in this Act, shall be expended for health benefits coverage that includes coverage of abortion.

3
c. The term "health benefits coverage" means the package of services covered by a managed care provider or organization pursuant to a contract or other arrangement."
## POLICY STATEMENT:

To guide the administration of the Health Center Program to ensure that Health Services Agency (HSA) complies with Public Laws 115-31, Title V, § 507 [Exceptions to Restriction on Abortions] and 42 C.F.R. §§ 50.301, et seq. [Abortions and Related Medical Services in Federally Assisted Programs of the Public Health Service].

This Policy establishes exceptions to Restriction on Abortions:

- a. The limitations established in the proceeding section shall not apply to an abortion:
  1) if the pregnancy is the result of an act of rape or incest; or,
  2) in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed.

- b. Nothing in the Policy “Restrictions on Abortions” shall be construed as prohibiting the expenditure by the State, locality, entity or private person of State, local or private funds (other than a State’s or locality’s contribution of Medicaid matching funds).

- c. Nothing in the Policy “Restrictions on Abortions” shall be construed as restricting the ability of any managed care provider from offering abortion coverage or the ability of a State or locality to contract separately with such a provider for such coverage with State funds (other than a State’s or locality’s contribution of Medicaid matching funds).

- d. None of the Health and Human Services funds may be available to a Federal agency or program, or to a State or local government, if such agency, program, or government subjects any institutional or individual health care entity to discrimination on the basis that health care entity does not provide, pay for, provide coverage of, or refer for abortions. The term “health care entity” includes an individual physician, or other health care professional, a hospital, a provider-sponsored organization, a health maintenance organization, a health insurance plan, or any other kind of health care facility, organization, or plan.

These exemptions also apply to subawards/subcontracts under a Health Resources and Services Administration grant or cooperative agreement.

## REFERENCE:

Public Law 115-31; Title V [General Provision]; § 507 and 42 C.F.R. §§ 50.301, et seq. [Abortions and Related Medical Services in Federally Assisted Programs of the Public Health Service]
PROCEDURE:
HSA's Chief Medical Officer will ensure that the health center and/or sub-awardees/subcontractors comply with this policy.

Strategy 2.1.1: We will involve all primary care teams in clinical improvement project including panel management approaches to improve patient care and staff satisfaction.

Objective 2.1.1.1: By June 30, 2023, build capacity with existing staff to work on quality improvement projects.

Objective 2.1.1.2: By June 30, 2023, we will create and revise workflows and policies every three years and train staff on these policies.

Objective 2.1.2: We will improve standardization of clinical practices.

Strategy 2.2.1: We will use key financial metrics and staff input to inform operational decisions.

Objective 2.2.1.1: By June 30, 2022, Clinic Services Division will develop a financial and operational metric dashboard accessible to all clinic staff.

Objective 2.2.1.2: By June 30, 2023, we will use Electronic Health Records (EHR) to continuously improve and monitor clinical care.

Strategy 2.2.2: Strategy 2.2.2: We will develop policy and systems changes to increase revenue.

Objective 2.2.2.1: By June 30, 2023, develop a plan to implement electronic payment feature utilizing My Chart.

Objective 2.2.2.2: By June 30, 2023, build awareness and train staff using existing OCHIN training resources on metric dashboard.

Strategy 2.3.1: We will ensure our facilities are equitably staffed and equipped to meet the needs of our community.

Objective 2.3.1.1: By September 30, 2021, the Homeless Persons Health Project (HPHP) will finish an interim expansion plan and evaluate options to expand and get approval.

Objective 2.3.1.2: By September 30, 2021, the Homeless Persons Health Project (HPHP) will finish an interim expansion plan and evaluate options to expand and get approval.
Objective 2.1.1.1: By June 30, 2023, build capacity with existing staff to work on quality improvement projects.

In list Strategy 2.1.1: We will involve all primary care teams in clinical improvement project including panel management approaches to improve patient care and staff satisfaction.

**Description**

**GOAL 2.1 CONTINUOUS PROCESS IMPROVEMENT: Strengthen systems through continuous process improvements:**

- Target:
  - Quality Improvement Teams are in place.
  - Data boards are developed.
  - Virtual vs. Physical location are established.
  - Focus Groups are conducted with teamlets.

**Key Steps**

- Assign people and dates to checklist items with Advanced Checklists. See all your assigned items and tasks in your items. Learn more

- Create QI Teams (clinicians, MA, RN) and increase available staff time to work on improvement projects.

- Build capacity with existing staff to work on quality improvement projects.

- Make time in staff schedules to be involved in patient improvement projects.

- Explore the feasibility of hiring panel manager, health educators and case management staff to improve productivity, clinical care and access to care.

- Add an item
Peer Review and Risk Management Committee

- Reviewed 19 chart with the Death Certificate data.
  - All charts reviewed provided appropriate care.
  - Reach out to Behavioral Health to make sure ECG are ordered or requested from the Primary Care Provider for patients that are prescribed psychiatric medication that could impact heart function.
    - Integrated Behavioral Health will connect with Chief of Psychiatry to write up a protocol.
